About Project Veritas

Project Veritas was founded by James O'Keefe. The mission of Project Veritas is to investigate and expose corruption, dishonesty, self-dealing, waste, fraud, and other misconduct in both public and private institutions in order to achieve a more ethical and transparent society.

We will accomplish this by:

- Launching specific journalistic investigations and widely publicize the results.
- Conducting training workshops to teach others how to become modern-day muckrakers.
- Creating a method for the public to alert journalists of issues and institutions that need to be investigated.

Project Veritas is a 501(c)3, it does not intend to advocate specific resolutions to the issues that are raised through its investigations, nor does it intend to encourage others to do so. Our goal is to inform the public of wrongdoing and allow the public to make judgments on the issues.
